The purpose of this freeze is to prevent a change in your long distance service provider(s) without your consent. A freeze is a protection against "slamming" (switching your service provider(s) without your permission). You can impose a freeze on either your intraLATA (local toll) or interLATA (long distance) service provider, or both. If you choose to freeze your account, you must contact Colorado Valley Telephone Cooperative, Inc. at 979.242.5911 or 800.242.5911. Colorado Valley must verify your freeze request by getting your written and signed authorization. You will not be able to change your long distance service provider(s) without lifting the freeze. You may lift the freeze by giving Colorado Valley a written and signed request or by calling Colorado Valley with your request. You must do this in addition to providing the verification information that your new long distance service provider(s) will request. There is no charge to the customer for imposing or lifting a freeze.

Please complete the following for each service that you wish to lift the freeze:
